IE 4727 Web Application Design

Week 1 Overview + Web Server Setup

Lecturer: Dr. Hu Xiao

Summary on Week 01

Overview: 100% Coursework, no Exams

Web Server Setup: Download and install XAMPP

Web Design Principles: Sitemap -> Storyboard -> Wireframing

HTML 5 Basics: HTML5 Elements

Week 01 Lab Exercise

1. Web Server Setup in Lab PCs

Download and install Xampp in your Lab PCs.

2. Create Folder Week 01 and try all the exercises, i.e, Exercise 1-14 under Topic HTML5 Basics:

Practice on HTML5 Basic Elements: Heading, Paragraph, Line Break, Horizontal Rule, Blockquote, Phrase Elements, List Elements, Anchor Elements and HTML5 Structural Elements.

3. Two students in each group for the final design project, finalize the group list.

For those classes with odd number of students, you may add/drop the course to another group with odd number of students.

Thanks
